ROTARY SWS STERILIZER

AR SERIES: 1500mm and 1700mm

- Vessel, piping, and heat exchanger in stainless steel construction
- Rotary drum driven by frequency inverter controlled motor
- Insulated shell with mirror polished, stainless steel cladding
- Each basket is clamped individually to match container load requirements
- Optimum temperature distribution ($\pm 1^{\circ}\text{F}$) and accurate pressure control (± 1 psig)
- Minimum steam and water consumption
- Available with manual or overhead hydraulic closure for easy automation
- Optional oscillation mode
- Includes STOCK America's award winning FDA accepted **ICON** controls
